Professional Summary

Frontend Engineer with 4+ years of experience delivering scalable, high-performance, and responsive web applications. Adept at working in cross-functional teams to define, design, and launch new features. Strong in writing clean, maintainable code and optimizing performance across modern JavaScript/TypeScript ecosystems including React. Passionate about solving real-world problems through accessible, cross-browser-compatible UI/UX.

Technical Skills & Familiarity

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, Redux Query, React Query, Node.js, Express.js
Styling: Tailwind CSS, Styled Components, CSS3, HTML5, Responsive Design
Backend & Cloud: Node.js, REST APIs, GraphQL, AWS (Lambda, S3, CloudFront), Serverless, Microservices
Tools & Systems: Git, Docker, Webpack, CI/CD pipelines, Firebase, New Relic, DevTools
Concepts: SSR, Accessibility (WCAG), Performance Optimization, Cross-Browser Compatibility
Testing: Jest, React Testing Library, Cypress (E2E), Integration & Unit Testing

---

Professional Experience

TartanHQ — *Senior Software Engineer*
Nov 2023 – Present

- Led end-to-end development of Tartan's flagship AI-powered Digital Address Verification (DAV) product, along with business centric dashboards, hyper-verify workflows, APIs and other modules.
- Laid the foundation for maintainable and modular frontend codebase.
- Engineered a scalable, config-driven architecture that accelerated API page development by 60%.
- Took initiative in UI uniformity, UX consistency across 80% of the platform and modernized legacy UI for performance and maintainability
- Earned consecutive recognitions as Star of the Quarter and Rising Star of the Quarter for technical excellence and ownership
- Collaborated with backend teams to ensure seamless data flow via REST APIs
- Conducted code reviews and mentored peers to maintain coding standards and performance.

Lotus Wireless Technologies — *Front End Engineer - SDE*
Apr 2023 – Oct 2023 | Hyderabad

- Contributed to a modern analytics suite for Tally Accounting.
- Engineered dynamic validation-rich forms for 15+ voucher types using React Formik and API integration via GraphQL.
- Worked closely with backend developers to integrate RESTful APIs efficiently.
- Designed responsive UIs using Tailwind CSS and ensured adherence to accessibility guidelines.
- Implemented React Query reducing API load times by 40% through optimized caching

ShareChat — *Front End Engineer*
Mar 2021 – Dec 2022 | Bengaluru

- Built a real-time match monitoring tool and improved seeding tool UI for better UX.
- Streamlined user journeys reducing data input steps by 40%
- Partnered with UI/UX teams to refine visual elements and interactions aligned with design systems.
- Built and optimized UI components ensuring responsiveness and cross-browser compatibility.
- Handled logic fixes, RESTful API integrations, and UI element adjustments for Fantasy PWA.

ShareChat — *Sports Operations Associate*
Mar 2020 – Mar 2021 | Bengaluru

- Extracted and analyzed sports data via HTML and SQL to improve product decisions.
- Supported product improvements through operational insights and documentation.

BYJU's — *Business Development Associate*
Aug 2019 – Dec 2019 | New Delhi

- Mentored 50+ students/parents to drive product adoption.

Education : **Bachelor of Technology (ECE) |** Guru Gobind Singh Indraprastha University | 2014 – 2018 | Percentage: 71.4%

Projects

Hyper-verify – Live Demo → TartanHQ star product for verification

Digital Address Verification – Live Demo (valid token required) → Built from scratch for TartanHQ, powering address verification at scale across lending & insurance

MovieFlix (2023) – Live Demo → Personal project → A responsive web app to display **`virtualized`** movieList with infinite scrolling and genre filters

Hotel97 (2020) – Live Demo → Personal project → SEO-optimized hotel search app with Google Maps integration using React & Tailwind CSS.

Disney97(2020) – Live Demo → Personal project → OTT-style platform for trailers with Firebase Auth; built with React + Redux + Tailwind CSS.
